

PROFI Accessory Kit (UN-SET-PRO)

Universal accessories fit into all RAMIA workbenches.

- PROFI Kit contains following items:
- Pair of Holdfast
 - Anvil
 - Pair of Cork and ALU pads

Notes:

HOLDFAST

Clamps are used for easy and quick clamping of the material to the worktop.

ALU PADS

The aluminium protectors are used to protect the vise when working with material that is harder than wood.

ANVIL

The anvil is intended for work with iron and minor metal machining works, which you can now also do on the joiner's workbench.

CORK PADS

The cork protectors are suitable accessories for protection of machined wooden pieces, as well as for the vice on your joiner's workbench, especially when working on material with a soft surface or that is susceptible to scratching.

ABOUT US

 RAMIA s.r.o. is a purely Czech family company specializing in manufacture and sale of wooden joiner's benches and workbenches.

The history of manufacture of joiner's benches in Písek dates back to the 1st half of the 20th century. The RAMIA s.r.o. company was established in 2006. It continued with both the manufacture of traditional joiner's benches and the development of new joiner's benches for professionals and handymen. This tradition is an obligation for us and, at the same time, quality assurance for our customers.

Preferring Czech suppliers, we carefully select them. Another distinctive feature of our company is an experienced and well-coordinated team working in perfect harmony of professionals in their fields.

The RAMIA joiner's benches are widely used by professional joiners and carvers, domestic hobbyists and DIY enthusiasts as well as by schools and vocational training centres. Our products are available in the EU, USA, Canadian, Australian, Japanese and other markets.

In a way, products of the Ramia s.r.o. company are unique, as there is no competition in Central and Eastern Europe with regard to products of a similar sort or companies specializing in this type of manufacture.

The design of RAMIA joiner's benches always lays stress on quality, integrity and service life.
